I, _____, hereby authorize Dr. _____ and any associates or assistants the doctor deems appropriate, to perform a liver biopsy.

The doctor has explained to me the potential benefits of liver biopsy to me, which is a procedure whereby small pieces of liver tissue are removed in order to be sent to a laboratory for examination. It is very helpful in the diagnosis of diseases that affect the liver. However, I understand there is no certainty that I will achieve these benefits and no guarantee has been made to me regarding the outcome of the procedure. I also authorize the administration of sedation and/or anesthesia as may be deemed advisable or necessary for my comfort, well-being and safety.

The doctor has explained to me that there are risks and possible undesirable consequences associated with the procedure(s) including, but are not limited to, pain, bleeding, collapsed lung, bile leaking into the liver or abdomen, damage to other organs such as the gallbladder or intestines, damage to surrounding vessels, and/or death. I understand that if I need blood or blood products these carry a risk of contracting HIV/AIDS, hepatitis, or other diseases. Further, any of these risks or complications may require further surgical intervention during or after the procedure, which I expressly authorize. _____

initial

In permitting my doctor to perform this procedure, I understand that unforeseen conditions may necessitate change or extension of the original procedure, or a different procedure from what was explained to me. I therefore authorize and request that the above-named physician, his assistants or designees to perform such procedure(s) as may be necessary and desirable in the exercise of his/her professional judgment.

In the unlikely event that one or more of the above inherent complications may occur, my physician or covering physician will take appropriate and reasonable steps to help manage the clinical situation and be available to me and my family to address our concerns and questions.

The reasonable alternative(s) to the procedure(s) have been explained to me. These alternatives include, but are not limited to, laparoscopy or surgery.
